

各种软管 Soft tubes

We have factories producing all kinds of soft tubes. There three kinds of tubes: 1, aluminum-plastic laminated tubes; 2, plastic tubes and 3, aluminum tubes.

All these kinds of tubes can be used for package of toothpaste, food, medicine, cosmetics and industrial use glue. The specifications of the tubes are: 12.7, 16, 19, 22, 25, 28, 30, 32, 35, 38, 40, 50, 60 mm in diameters. We have sent these tubes to many countries, and we also supply tube raw materials.
